

2ND GRADE SCIENCE

newsletter

Week of: September 16th-20th

WHAT ARE WE LEARNING?

- SC.2.N.1.1 The Practice of Science
- ** We will be discussing lunar eclipses in class due to the partial lunar eclipse taking place on September 17.
- Demonstrate how to ask questions about the natural world.
- Use five senses to make careful observations.
- Understand how to describe objects in terms of color, shape, texture, size, weight temperature, quantity, and buoyancy.

VOCABULARY

Practice vocabulary weekly.

IMPORTANT INFO

September's full moon, the "Harvest Moon," will rise in the northern hemisphere on 9/17 and will be eclipsed by Earth. All U.S. states will get a good view of this partial lunar eclipse beginning at 8:40pm and peaking at around 10:44pm.
