

American Math Homework

Week of 09/16 – 09/20

The homework for this week will be done on IXL. Be careful when submitting your answers. If you miss a problem, the module takes you to a lower score and you have to work again in order to increase your score. Please take help of your class notes, video on IXL, and/or correct worked out answer shown on IXL when you miss a problem.

Login

Follow the below instructions to login:

1. If working on the school iPad, open the IXL app. Login using your IXL username and password. See picture of your login details given to you in class.
2. If working on the computer, go to ixl.com and login using your IXL username and password. Use the login details given to you on the printed page in class.

Topics

Topics are assigned to you, which you can see under the tab – Assigned by teacher. Please follow the below schedule for homework:

Monday (09/16) –

- H.18 – Multiply 1-digit number by 3-digit number or 4-digit numbers: Multi-step problems

Note: If this module is too hard for you, please do H.17 - Multiply 1-digit numbers by 3-digit or 4-digit numbers: word problems instead. I will consider the grade for this module instead of H.18

Tuesday (09/17) –

- I.7 – Multiply 2-digit numbers by 2-digit numbers using area models

Wednesday (09/18) –

- No homework

Thursday (09/19) –

- No Homework

Friday (09/20) –

- I.8 – Multiply 2-digit numbers by 2-digit numbers using partial products

Due date

The homework is due on Sunday, 09/22 by midnight.

Grading

To receive a 100% on the homework grade for the week, you need to get a minimum score of 100 on **each** of the assigned topics before the deadline.
